

LA FINESSE

# LA FINESSE: FOUR VIRTUOSOS – DISTINCTIVE ARRANGEMENTS

LA FINESSE unites the worlds of classical and modern music and creates a new musical universe - made of strings. There was a time in history when classical music was 'pop music' for privileged classes - this remarkable string quartet shows that classical music today can be pop music for the masses! The four ladies really know how to tell the musical stories of the most popular composers with their instruments - and they love to play with traditional and modern elements in their own way. All musical interpretations are exclusively arranged for and by LA FINESSE which creates the incredible distinctive sound of the quartet.

Let's take a deep dive into the world of LA FINESSE and meet the fascination of classical music in combination with elements of rock, house, dubstep or electronic music.

## **Live events with character - emotional and surprising**

LA FINESSE has inspired music enthusiasts of the genres classical music, musical and pop all over Europe for more than five years now. Charm, talent and an outstanding live presence are the basis for unforgettable music events with character.

The four 'FINESSES' enrich the programs of cabarets and music festivals. They played at events of namable companies, at receptions of public institutions and ministries and were involved in great charity events.

They have the courage to put the musical heritage of composers like Brahms, Mozart or Beethoven in a new surprising context. There is probably no other string quartet that knows how to build a bridge between classical and modern music from Mozart's era up to popular songs known from movie and tv screens. LA FINESSE live on stage is an emotional sound experience.
